## Nordic Logistic Manager - for Chiesi based in Stockholm

Chiesi is an international, researched-focused company that has established a strong heritage in producing innovative pharmaceutical solutions to improve the quality of human life. The company is in an expansion phase due to strong growth of existing products as well as launches of new products. The role as Nordic Logistic Manager is new since supply chain currently is handled centrally from the company's head quarter in Parma, Italy. We are looking for a highly qualified person that wants to build the logistical function from scratch, including introducing a new ERP system (SAP). The Nordic office is located in central Stockholm.

## Areas of responsibility

- Responsible for all supply chain related activities and tasks in the Nordic region.
- Ensure a seamless transfer of responsibility of supply chain from HQ to Nordic level.
- Introduction of a new ERP system (SAP) and develop and implement relevant processes.
- Ensure that all relevant supply chain systems are appropriately developed, maintained and improved.
- Manage demand forecasting, product supply, recalls, management of customer and customer complaints, inventory management.

## Skills, competence and experience

- 10 years progressive experience in various supply chain management roles within the Pharmaceutical or Healthcare industry.
- Experience from Nordic and international environment.
- Ability to demonstrate leadership in driving change in an organization.
- Strong commercial understanding.
- Good organisational skills and ability to work under own initiative.
- Good system and ERP skills, SAP experience is an advantage.
- Result and solution oriented approach strong analytical skills
- Good communications- and social skills, leadership experience is seen as a plus.
